U.S. AIR FORCE

The Big Picture

COINS

Air Force Contracting: Expeditionary - Agile -

U.S. AIR FORCE

How are we going to get there?

- Policy
- Processes
- Automation
- Training
- Attitude
- Schedule

U.S. AIR FORCE

Policy

- No more DD350 or DD1057 as of 1 Oct 04
- No edits except in FPDS-NG
 - What is an edit?
- Change office code to DoDAAC on 1 Oct 04
- No paper copies in contract files
- Actions >\$2,500 and mods to those actions
- No \$0 actions except basic IDVs
- Single, multiple, and express reports called CARs
- Report SF44s
- At least monthly reporting of contingency, remote, fleet

U.S. AIR FORCE

Processes

- Some standard processes for all Federal agencies
- Some standard processes for DoD
- Machine to machine will be AF standard
- Unlearn DD350 processes, they may not be the same in FPDS-NG
 - Blanks vs n/a vs no fill
 - Terms may not mean in FPDS-NG what they meant on a DD350
- Contract writing system dependent
 - What auto fills comes from your contract writing system or FPDS-NG
- Query capability coming

U.S. AIR FORCE

Automation

- FPDS-NG
- CCR
- BPN, i.e., ORCA

- ACPS
- ConWrite
- COINS
- SPS

- Enterprise Data Warehouse & CBIS

U.S. AIR FORCE

Training

- No training until we know the
 - Who
 - What
 - When
 - Where
 - How
- Then we will madly be training everyone for FY05 in some format
 - Most likely, train the monitors
- I am creating a matrix for distribution to the programmers and once refined, hosting it to our homepage

U.S. AIR FORCE

Matrix

Field Name	Description of Field	Field Size (Char)	Options in this field	When to use each type												System Edits
				Awards				Basic Indefinite Delivery Vehicles (IDVs)								
				DO/TO	PO	Stand Alone Contract	BPA Call	Basic FSS	GWA C	Basic BOA	Basic BPA	Basic IDC	Mod	Express		
Basic awards					"M" "P" "V" "W"	"C" "F" "E" "H" "K" "L" "S"				"G"	"A"	"D"				
Orders/Calls against a basic				"D" "F" "G"			"A"									
General Information:																
Procurement Instrument ID (PIID):	If Basic award, this is the PIIN. If Order, this is the SPIIN	50	13 Digit PIIN or SPIIN	M - CWS	M - CWS	M - CWS	M - CWS			M - CWS	M - CWS	M - CWS	M - CWS			
Mod #	2 digit or 6 digit mod #	25	2 digit or 6 digit mod # or blank if action not a mod	M, if mod CWS	M, if mod CWS	M, if mod CWS	M, if mod CWS			M, if mod CWS	M, if mod CWS	M, if mod CWS	blank CWS			
Referenced IDV ID:	If Basic award, this is blank, If order/call this is the PIIN	25	13 Digit PIIN or blank if not an order/call		M - Blank	M - Blank	M - CWS			M - CWS	M - CWS	M - CWS	M - CWS			
Transaction No.:	use for multiple reports to uniquely identify each report	3	1-999 or blank if not a multiple report	M, if multiple report	M, if multiple report	M, if multiple report	M, if multiple report			M, if multiple report	M, if multiple report	M, if multiple report	M, if multiple report	Blank		
Reason for Modification:																
Solicitation ID:	Solicitation No	25	13 Digit Solicitation PIIN entered in FedBizOpps	O-	O-	O-	O-			O-	O-	O-	O-	Blank		
Dates:																
Date Signed (mm/dd/yyyy):	Date AWARD signed by CO or ktr whichever is later	8	mm/dd/yyyy per field name, but data dictionary says YYYYMMDD????	M - CWS	M - CWS	M - CWS	M - CWS			M - CWS	M - CWS	M - CWS	M - CWS			
Date/Time Stamp Accepted:	Date & time when CAR validated and accepted by FPDS-NG	12	YYYYMMFFHHMM	FPDS-NG Generate d	FPDS-NG Generate d	FPDS-NG Generate d	FPDS-NG Generate d			FPDS-NG Generate d	FPDS-NG Generate d	FPDS-NG Generate d	FPDS-NG Generate d	FPDS-NG Generate d		

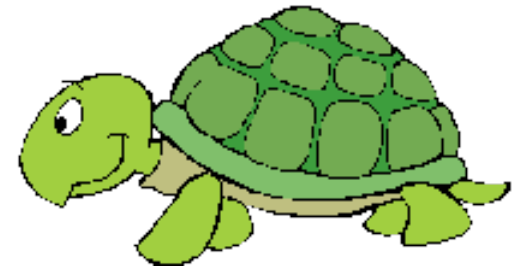

U.S. AIR FORCE

Attitude

- Change is inevitable, except from vending machines
- Behold the turtle. He makes progress only when he sticks his neck out –James B. Conan

- Representatives from DoD/DPAP, GSA, IAE, and GCE met with Ms. Lee on April 2nd to discuss the status of the FPDS-NG implementation. The discussion focused on two key areas: (1) action plan for ensuring that DoD can report to Congress for FY '04, and (2) action plan designed to get DoD fully transitioned to the FPDS-NG environment by October 1, 2004, to begin FY '05 reporting.

GCE presented its milestone plan for completing the work identified by DoD that will enable DoD to achieve the goals set forth in numbers (1) and (2) above. those milestone dates are as follows:

1. April 8th: requirements session at GCE
2. April 16th: GCE delivers design specifications for work to be completed
3. June 1st: Beta site will have reloaded historic DoD data, PIID will be stabilized, Number of Actions data element will be present, Multiple Report functionality will be enabled
4. July 1st: Functionality described in (3) will be moved to production FPDS-NG
5. July 1st: Beta site will have Award and IDV web services templates, ops tempo delay of 3 months, updated DoD edits, DoDAAC updates
6. August 1st: Functionality described in (5) will be moved to production FPDS-NG
7. August 1st: Beta site will have standard and ad hoc reports, data extraction capability for use by B.I. systems, and field lockdown functionality
8. August 15th: Functionality described in (7) will be moved into production

U.S. AIR FORCE

Schedule

- In addition to the milestones set forth in the latest version of the DoD Transition Plan, DoD needs to hit the following dates:
 1. April 30th - DIOR needs to coordinate with GCE to ensure that plan is in place to begin testing of data pass for FY '04 data
 2. April 30th - DIOR needs to coordinate with GCE to make sure that plan is in place to begin testing of data pass for historic DoD data (FY '97-'03)
 3. May 31st - DIOR to complete pass of historic DoD data (FY '97 - FY '03) to FPDS-NG Beta site (assuming FPDS-NG ready)
 4. May 31 st - DIOR to complete pass of FY '04 DoD data to FPDS-NG Beta site (assuming FPDS-NG ready)
 5. June 1st - all DoD contract writing systems need to start aggressively testing against the reloaded data and "new" PIIDs. Can't wait to mid or late June to start. So, need to spread the word and get agencies ready to start hitting the keyboards and doing machine to machine passes as of June 1st.
 6. July 1st - DIOR needs to begin transmitting FY '04 data to production FPDS-NG

It is essential that we keep the momentum going in order to ensure that DoD is ready to successfully hit each of its milestones needed to get through this transition successfully. Please feel free to give me a call if you have any questions/comments.

U.S. AIR FORCE

Revised Schedule

- 18 June: beta site availability of Phase I functionality (historic DoD data, PIID stabilization, number of actions, multiple reports). To be moved into production 16 July.
- 16 July: beta site availability of Phase II functionality (web services with templates, ops tempo delay, updated DoD edits). To be moved into production 13 August.
- 13 August: beta site availability of Phase III functionality (field lock-down, reports). To be moved into production 10 September.
